GOLDEN BEAR ENVIRONMENTAL LLC

2817 Marker Road  
Middletown, MD 21769  
(866) 43-GOLDEN

CAPABILITY STATEMENT

## Capability Statement

### Golden Bear Environmental LLC

*One Goal: Zero Waste. Sustainable Solutions for a Cleaner Tomorrow.*

### Core Competencies

We specialize in providing comprehensive waste management and recycling solutions tailored to meet the needs of municipalities, commercial businesses, federal and industrial clients. Our core services include:

- **Waste Collection & Disposal:** Reliable and efficient collection services for commercial, and industrial waste.
- **Recycling Services:** Custom programs for the recovery and recycling of paper, plastics, metals, and other materials to promote sustainability.
- **Organics Recycling:** Food and green waste recycling to create nutrient-rich compost and reduce landfill impact.
- **Specialized Waste Solutions:** Safe collection, transportation, and disposal of hazardous and electronic waste (e-waste).
- **Consulting & Audits:** Waste audits and sustainability consulting to optimize waste reduction and recycling strategies.

### Differentiators

- **Sustainability-Driven:** Commitment to environmental responsibility through innovative waste diversion and recycling technologies.
- **Advanced Fleet:** State-of-the-art vehicles and equipment for efficient and environmentally friendly operations.
- **Customer-Focused Solutions:** Tailored services and dedicated support to meet diverse client needs.
- **Compliance Expertise:** Adherence to all local, state, and federal regulations to ensure safe and lawful waste management.
- **Experienced Team:** A skilled team with a proven track record of delivering exceptional service.

### Performance

- Successfully implementing zero-waste initiatives for the Washington Commanders football team as well as the Monumental Sports, The Capitals, Wizards and Mystics at Capital One Arena, working to

reduce landfill contributions by 40%.

- Actively reducing the food waste at Northwest Stadium by 90% through implementation of a stadium wide composting program.
- Utilizing our TRUE and LEED certified team members to realize tangible data for commercial clients to identify weaknesses in their waste stream, we have been able to institute more sustainable practices and equipment.

## **Certifications**

- TRUE Certified Advisor
- LEED
- MBE Certified
